	<p>Golden Thread Fire Delay - supply and install a complete range of passive fire protection systems and solutions, as well as completing compartmentation, fire door surveys and inspections with full pictorial reports. We provide a consultancy service that can work with your design team to ensure compliance with all regulatory requirements. We are a market leader in Passive Fire Protection (PPF). For over 30 years, we have been delivering services to a growing list of sectors including: Commercial; Construction; Education; Government; Healthcare; Residential &amp; Student Accommodation; Transport Infrastructure. <a href="http://www.goldenthreadfiredelay.com">www.goldenthreadfiredelay.com</a></p>
	<p><b>Evac+Chair</b> - The original manufacturer and global leader in emergency evacuation chairs for the mobility impaired. Independently tested and proven to be the safest and fastest means of evacuation, Evac+Chair is trusted and relied upon in emergency situations to assist in saving people's lives. <a href="http://www.evacchair.co.uk">www.evacchair.co.uk</a></p>
	<p><b>Fireco Ltd</b> - Fireco is one of the UK's leading suppliers of professional fire door services - from inspections, remedials and installations, to helping customers keep doors out of the way with our range of market-leading, innovative door retainers and free-swing devices. Fireco are also experienced with helping alert hearing-impaired people in an emergency and getting vital information to relevant stakeholders using our Digital Messaging Service and Roll Call system.  <a href="http://www.fireco.uk">www.fireco.uk</a></p>
	<p><b>Lorient UK</b> - Lorient is a market leading brand of high-performance sealing systems for door assemblies, protecting life &amp; property throughout commercial, industrial &amp; public buildings. Renowned internationally for designing &amp; manufacturing the highest quality sealing systems embracing acoustic, smoke, fire &amp; thermal containment; as well as accessibility.  <a href="http://www.lorientuk.com">www.lorientuk.com</a></p>
	<p><b>Quelfire</b> - Quelfire is a leading manufacturer of passive fire protection solutions, specialising in tested systems for sealing service penetrations in buildings to maintain fire compartmentation. The company supports construction professionals with detailed technical guidance and support, as well as practical tools that help ensure compliant, reliable firestopping from design through to installation. <a href="http://www.quelfire.co.uk">www.quelfire.co.uk</a></p>
	<p><b>calfordseaden</b> - With 85 years' experience, calfordseaden is a leading property and construction consultancy. Operating from offices across England, we provide expert solutions for diverse projects. As a carbon-neutral, PAS 2060-accredited, and Investors in People Gold-certified organisation, we are committed to sustainability, excellence, and client satisfaction. Named Consultancy of the Year, we deliver innovative, tailored services to meet our clients' unique needs and ensure outstanding results in the built environment. <a href="http://www.calfordseaden.com">www.calfordseaden.com</a></p>
	<p><b>Consort Insurance</b> - As the trusted insurance advisor and affiliate partner to the FIA, ASFP and IFSM, we offer specialist insurance solutions for those in the fire and security industry. Our exclusive Protection and Detection (PaD) insurance programme is designed to help 'best of sector' organisations manage their exposure and liabilities in relation to fire risk. PaD is not an open market solution and terms are exclusively available from Consort  <a href="http://www.consortinsurance.com">www.consortinsurance.com</a></p>
	<p><b>Trovex</b> - Trovex designs and manufactures hygienic interior systems for healthcare environments, including fire-rated doorsets, internal windows, integrated plumbing systems, hygienic wall finishes and more. Our products combine fire safety, infection prevention and long-term durability, supporting NHS estates teams in creating compliant, maintainable clinical spaces. The Hygidoor range delivers primary tested and certified fire performance with a fully PVC-encapsulated hygienic construction designed for high-traffic environments. <a href="http://www.trovex.com">www.trovex.com</a></p>
